CAREER OBJECTIVE:

Motivated Computer Science student with a strong foundation in programming, algorithms, and a deep interest in Artificial Intelligence. Eager to apply machine learning and analytical techniques to solve real-world problems, while continuously enhancing my technical and problem-solving skills through hands-on projects and learning opportunities.

EDUCATION:

Bachelor of Engineering - Computer Science and Engineering (2024-2028),

Chennai Institute of Technology,

Kanchipuram

TECHNICAL SKILLS:

Languages: Python, C++, Java, SQL Web

Technologies: HTML, CSS

Tools & Platforms: Leetcode, Skill rack, Code Chef

CERTIFICATIONS:

- **Completed Virtual Internship with Eduskills Foundation focused on networking and digital skills**
- **Completed BSNL internship training on wired and wireless communication and computer networking**
- **AWS Cloud Partitioner Essentials**
- **CISCO - Introduction to Cyber Security**
- **CISCO - Introduction to Data Science**
- **CISCO - Introduction to Modern AI**
- **CCNA: Introduction to Networks**

ACHIEVEMENTS:

- Solved 350+ problems on Leet code.
- Regular participant on Skill rack and Code Chef .
- Participated in college level Hackathons

PROJECTS:

AI language learning app with reinforcement learning
